**CS 521-001 Spring 2004 Survey**

Please complete this survey and return it to the instructor. Thanks!

Full name and student identification number:

Email address you regularly read:

URL (if you have one):

Enrolled, auditing, or undecided (E, A, or U):

If auditing, why?

Major department/student type+year in UK (e.g., CS/U3 or EE/G2):

Phone, campus mail address:

Do you have access to a PC or workstation with Internet access? (Y or N)

Do you have an account on the HP supercomputer on campus? (Y or N)

What is your numerical mathematics/parallel computing background? *List UK courses after Y or N.*

- Numerical linear algebra (Y or N)
- Numerical methods for PDEs (Y or N)
- Parallel computing in general (Y or N)
- Sparse matrix methods (Y or N)
- Other:

Relevant computing background (circle ones you are proficient at):

- C
- C++
- C#
- Fortran
- Java
- Matlab
- Maple
- MPI
- OpenMP
- PowerPoint
- LaTeX
- Acrobat
- Word
